THE BAERS ARE BACK!

HeidelBÄR Games was founded in 2017 with the aim of bringing the experience, passion and creativity of **Heidelberger Spieleverlag** to the international games stage.

We want to develop unusual, funny, but also clever games that are as easy as possible for everyone to learn.

Initially HeidelBÄR Games was founded as a studio within the **Asmodee-Group**. But BÄRs (German for BEARs) are creatures of the wild and so—30 years after the original founding as **Heidelberger Spieleverlag**—a new independent publisher was founded: **HeidelBÄR Games GmbH** (now again owner of the **Heidelberger Spieleverlag** brand). Internationally, our games are distributed by various publishers. In German-speaking countries, our games are exclusively distributed by another original BEAR, whom we trust with the name **Heidelberger Spieleverlag**. Game on!

Spicy

When big cats measure their strength, they try to outbid each other with the sharpest spices. And so begins an entertaining and tearful competition!

Even the strongest tiger will go down in tears, if forced to consume high amounts of chili, wasabi or pepper. So the clever big cat decides to bluff. Chances to get away with it are quite good, if it's the right number of spices or the right kind of spice.

Spicy adds new flavour to a classic game principle!

Wordsmith

Curves, straight lines long and short—these are your tools to smith words. Which word will you build with your letter pieces?

Wordsmith is all about discovering words, but instead of whole letters, you just have letter pieces in four different shapes. All players create words simultaneously, but each word can only be scored once, so a thrilling challenge of word discovery begins. Which words will you discover in your letter pieces?

Longer words earn you more points, but you also want to make all six words before the round is over. And of course there is a twist: You get bonus points when you limit the number of your discarded pieces.

Decipher

This game is all about thinking up clever words that will be hard to decipher and cleverly combining letter pieces to guess secret words.

Decipher is a different kind of word game for 2-4 players. Players use 4 different letter pieces to create and solve word puzzles.

In each round a different player builds a secret word puzzle. The others only know which letter pieces are in the secret word and gather clues and points by asking about where letter pieces go. Can you decipher the secret word?

The Letter Piece Game system is a special way to build letters from four different basic shapes. Including the same playful semi-transparent colored plastic letter pieces found in Wordsmith.

A la carte

As everyone knows, too many cooks spoil the broth. Let's sizzle your own culinary delicacie while trying to oversalt your wannabe-chef-rivals' dish!

In this extraordinary dexterity game you'll try your hand at being chefs. Set your stove to the correct temperature and show your finesse by giving your dishes just the right amount of seasoning. Always keep an eye on the temperature of your stove, and of course the right amount of spices is key. Burned or overspiced dishes go straight in the garbage.

If you then prove that you have the right swing to turn the crêpes, you can easily master the perils of the kitchen to become the true chef de la cuisine.

For: Seasoning experts and skilful gourmet chefs

VOLT

WELCOME TO THE ROBOT ACTION! The crowd is screaming for laser blast action and the operators are just waiting for the starting signal... LET THE BATTLE BEGIN!!!

In **VOLT**, each player takes on the role of an operator controlling a robot to challenge others in the combat arena. By programming three steps ahead, players try to anticipate the moves of other robots. Push them into pits or blast them out of the arena with your laser, if possible without getting hit yourself. Destroyed robots don't have to wait long for their next foray into the ring. They reboot in the next round. Lightning barriers, energy walls, pits ... the VOLT arena awaits you!
