Tails on Fire

Once upon a time, Iguana stole fire from the village and fled to the sky. To restore fire to the world, Opossum found Iguana's hiding place, lulled him to sleep, and stole the fire with her tail—or so the story goes.

First, everyone chooses three opossums for the round (after looking at the cards already on the table). In game always the next highest number is played. If no one can play on your card, you win the round's fire and may be able to steal fire from others.

Fish & Katz

The good old people who run their stalls at the famous Korean fish market Jagalchi sometimes need a little rest from their hard work. While they take a nap, their loyal cats take over and manage the booth. The cats love their owners, but they also love fish. What could go wrong?

Put on cute cat paws and grab the fish! On the count of 3, all of you simultaneously swipe at a fish on display. Whoever's paw is alone on a fish wins it—if there are several paws, the fish goes to the discard pile. Sets of at least 3 identical fish grant paw points.

Includes the **squid expansion** for more interaction!

Sweet & Spicy

Once hungry kitty craved to eat, but found only lemon, chili, and pepper. From prickling hot sensation came the grand idea for this sweet game.

This cute family version of our award winning card game **Spicy** includes total wilds to help you out of hesitation pauses. Otherwise, the popular gameplay remains the same: Play cards face down and sometimes slip a wrong ingredient or number on the pile undetected.

Family variant with new total wild!

Spicy

When big cats measure their strength, they try to outbid each other with the sharpest spices. And so begins an entertaining and tearful competition!

Even the strongest tiger will go down in tears, if forced to consume high amounts of chili, wasabi or pepper. So the clever big cat decides to bluff. Chances to get away with it are quite good, if it's the right number of spices or the right kind of spice. **Spicy** adds new flavour to a classic game principle!

Coyote

Once Coyote crossed the river with his friends when he almost drowned and lost all his belongings. Coyote became sad ... and also jealous. So he challenged the other animals to a bluffing game to win their belongings. They accepted, but it was more difficult than expected to detect Coyotes bluffs, for in this game no one knows the whole truth.

In this bluffing game, you only ever see each other's cards, but never your own. Then, when all the cards are revealed, you'll find out who has the cunning coyote on their side.

Anansi

Some say Anansi is a trickster, but he is a spider for sure and sometimes even a man.

He is also called the “Keeper of Stories,” because he collected all the stories, to then realize that true wisdom is gained only by inspiring others with your stories, for untold tales are of little value.

Anansi is a unique trick-taking game where you have to constantly adjust your tactics.

Wordsmith

Curves, straight lines long and short—these are your tools to smith words. Which word will you build with your letter pieces?

Wordsmith is all about discovering words, but instead of whole letters, you just have letter pieces in four different shapes. All players create words simultaneously, but each word can only be scored once, so a thrilling challenge of word discovery begins. Which words will you discover in your letter pieces?

Longer words earn you more points, but you also want to make all six words before the round is over. And of course there is a twist: You get bonus points when you limit the number of your discarded pieces.

Decipher

This game is all about thinking up clever words that will be hard to decipher and cleverly combining letter pieces to guess secret words.

Decipher is a different kind of word game for 2–4 players. Players use 4 different letter pieces to create and solve word puzzles.

In each round a different player builds a secret word puzzle. The others only know which letter pieces are in the secret word and gather clues and points by asking about where letter pieces go. Can you decipher the secret word?

The Letter Piece Game system is a special way to build letters from four different basic shapes. Including the same playful semi-transparent colored plastic letter pieces found in Wordsmith.
