

General information & new products

Spielwarenmesse Nuremberg 2024

HeidelBÄR Games will be presenting fantastic new games for the game year 2024 at the Spielwarenmesse Nuremberg 2024. From January 30 to February 3, we will be in Hall 10.1, Stand D-26, D-28 together with our close partner **Czech Games Edition** and our sales department.

Last year our new board game *Time Division* was released in German and English in Europe and at the end of the year also in the US. The 2-person game offers three playable decks with different difficulties, in which you try to master the time nodes to survive in time. Decide for yourself which era you want to play or play the campaign and see which time agency still exist after three games.

Each game begins with a drafting phase in which the decks of the two people are formed. Then, one card is played in each round. The person whose card has the higher influence gets to decide how the two cards will then be used. Each card can be used as an influence card or as an action card.

However, the two cards must be used differently. So, think carefully about how you want to use which card so that you have the most influence at the end of the game and win the game.

For 2024 we will release two new card games. At Nuremberg there will be a prototype of one of them, so we can give you a sneak peek. We will inform you separately about the release date and more information about the games.

Czech Games Edition

Starting last year at **PAX Unplugged**, **Czech Games Edition** started distributing our games *Time Division* and worldwide loved bluffing game *Spicy* in the US. We **HeidelBÄRen** work since many years close together with **CGE** and localize their fantastic games, like *Lost Ruins of Arnak*, *Codenames*, *Kutná Hora* in German,

From now on, **Czech Games Edition** will help us to expand our US market. Our fun and fast learned card games are a perfect match to their great board games. We will also be releasing the other games from our card game range in the USA during the year.

Look forward to our popular family games like *Animal Poker*, the card game about the unfair life of promotion and demotion or *Blaze*, the ingenious card game with shifting alliances, based on the Russian classic Durak, with nice improvements and the chance of winning the game (instead of trying not to be the Durak).

We have also another great bluffing game with *Coyote*, where you must combine all numbers, but you don't know your own card. You already know *Spicy*? Then prepare for some cuteness in *Sweet & Spicy*. It combines the great game mechanic and makes it accessible for a younger audience, so the perfect bluffing game to start with. *Hungry Monkey* is a card game where the goal is to get rid of your hand cards and collect beans. Playing always the same of higher cards and using some powerful effects is a great fun. Or you like it hotter? Then be ready for *Tails on Fire*. Every round of this interactive card game will be played with only three cards, so it leads to a permanent dilemma, creating a unique gaming experience.

About us:

HeidelBÄR Games is an owner-managed publisher and developer of board and card games. Originating from Heidelberger Spieleverlag, which was founded in 1989, **HeidelBÄR Games GmbH** concentrates on developing and marketing board and card games that are as accessible and unusual as possible. We are also responsible for the marketing and implementation of selected international partners.
