Mü & more

Mü is a trick-taking game with many unique elements, such as players revealing some cards before trick-taking begins, two trump suits, and the chance to choose your own team partner. Play bold and play as a team to earn the best bonus in Mü!

Your goal is to score points by winning tricks and earning bonuses. First, an auction determines who takes on the opposing roles of Crown and Shield. These players select the trumps, which beat all other cards. Then the Crown player picks a Partner for the hand.

With preparations complete, trick-taking begins! The Crown team works to score points based on the Crown's bid in the auction. Once all tricks are taken, players collect personal points and the winning team earns bonuses. Try to score the most over multiple hands!

*Mü & more is one of my all-time favorite games. The various games included are all super fun and extremely enjoyable. This is a **MUST-PLAY** card game collection!*

Time Division

No one knew, when it began, but suddenly two timelines merged and two time agencies came into being. Now, the denizens of the animalverse have been left to wonder whether both are working for the good, or if perhaps one harbors a darker agenda?

Time Division is a time travel duel for two people, where you try to master the time nodes to survive in time. The 2 person game offers three playable decks with different difficulties. Decide for yourself which era you want to play or play the campaign.

Great pre-game draft and very clever play opportunities.

how to play

Snatch it!

It's buzzing and humming around the pond with creatures small and smaller. Just then, greedy frogs hop up to snag some critters and fill their bellies! Help your froggy eat its way down the food chain in this family game where mischief, clever play and lily pad luck earn the best meal in the pond.

Become a hungry frog and grab the tastiest cards from the pond. Protect your well-filled piles from the other greedy frogs who keep trying to snatch them away from you. Only those who collect their piles before they burst will not end up with an empty belly.

What we love the most about this game is that it takes twists and unexpected turns.

Spicy

Once upon a time, 3 big cats became exhausted fighting to be top cat. They agreed to quit the fight and spice up their 9 lives with a hot spice eating contest! Alas, everyone was soon cheating, so the cats invented a very hot, often tearful, bluffing game.

This clever card game isn't just about bluffing. For you can almost always play a card that is at least half right if you cleverly play your hand. This means tactically deciding which card to use to get through and outsmart your opponents. This worldwide card game hit convices with a total of 40 independent artworks. In addition, not only the game box sparkles in chic metallic gold, but also the card backs are adorned with a gold-colored finish.

Spicy is a fantastic card game! it's fun to lie and bamboozle your friends about the cards in your hand. It's a particularly striking game, and the kind of game that will stick in your mind long after you've played it just on art alone. 8.75/10
What's Eric Playing? 2023

Spicy from HeidelBÄR Games understands the virtue of simplicity, but also never forgets that games are meant to be played by people around a table laughing at each other. It's sharp, fast and funny. Tremendous fun.
5 Games 4 Doomsday Podcast 2021

It's cute, it's fast paced and it's also super fun with just two players.

Fish & Katz

The good old people who run their stalls at the famous Korean fish market Jagalchi sometimes need a little rest from their hard work. While they take a nap, their loyal cats take over and manage the booth. The cats love their owners, but they also love fish. What could go wrong?

Put on cute cat paws and grab the fish! On the count of 3, all of you simultaneously swipe at a fish on display. Whoever's paw is alone on a fish wins it – if there are several paws, the fish goes to the discard pile. Sets of at least 3 identical fish grant paw points.

Includes the *squid expansion* for more interaction!

You can have a great laugh with this game. The cute cat paws finish it off and are actually already a reason to have this game in your collection."
DiceDaniel, 17.07.2023

If you are a cat lover, this will spark some joy on your gaming table.

Sweet & Spicy

Once hungry kitty craved to eat, but found only lemon, chili, and pepper. From prickling hot sensation came the grand idea for this sweet game.

This cute family version of our award winning card game **Spicy** includes total wilds to help you out of hesitation pauses. Otherwise, the popular gameplay remains the same: Play cards face down and sometimes slip a wrong ingredient or number on the pile undetected.

**Family variant
with new
total wild!**

This (child) friendly edition of Spicy has sweet cat pictures and a little twist to keep your head cool.

Hungry Monkey

Hungry monkey was desperately looking for his breakfast, a delicious bean. He asked the other animals of the jungle for help, but only when Little Ant crawled into the ear of King Tiger, they were persuaded and the search began ...

Each player has a secret row of cards in front of them. To win, you must first play all the cards in your hand and then all the cards from your secret row. The powerful animal effects will help you with this task!

Hungry Monkey is a blast! What I particularly like about it is that it's a competitive card game with high player interaction. 8.5/10.

Tails on Fire

Once upon a time, Iguana stole fire from the village and fled to the sky. To restore fire to the world, Opossum found Iguana's hiding place, lulled him to sleep, and stole the fire with her tail – or so the story goes.

First, everyone chooses three opossums for the round (after looking at the cards already on the table). In game always the next highest number is played. If no one can play on your card, you win the round's fire and may be able to steal fire from others.

Like wildfire, victory spreads once the pyromaniac opossums bluff each other out.

Coyote

Once Coyote crossed the river with his friends when he almost drowned and lost all his belongings. Coyote became sad... and also jealous. So he challenged the other animals to a bluffing game to win their belongings. They accepted, but it was more difficult than expected to detect Coyotes bluffs, for in this game no one knows the whole truth.

In this bluffing game, you only ever see each other's cards, but never your own. Then, when all the cards are revealed, you'll find out who has the cunning coyote on their side.

A bluffing game in which everyone has to lie, because nobody knows the truth!

how to play

Blaze

Well, my friend. If you want to catch the blazing Firebird for its magical feathers, I will not hold you back. But remember, these woods are full of dark secrets and people say that this bird may bring both fortune and misery. So better keep your eyes open...

Play cards to challenge the next player together with a supporter. Build a good hand of cards during the game and win the most valuable feathers in the end.

It's a quick light game you can just play anywhere and laugh with each other. It has the right amount of an interesting mind game.
